Profile

I am self-taught junior Front-End Developer. My journey in Web-Development started a long time ago, at school. I always have been interested in computers and relative with it things. I got basic knowledge of C++ at university, also I have joined bootcamp and it helped me to enter in Web-Dev. In programming, I enjoy solving various problems and exploring its possibilities.

Source Of Knowledge

- CodeHS – JavaScript And Programming Basics

- David Choi – Full-Stack React, TypeScript and Node with GraphQL

- Javascript.info – Fundamentals of JS

- Joe Attardi – Modern CSS

- FreeCodeCamp – Responsive Web Design | JS Algorithms & Data Structures | Front-End Development Libraries

- Bitcamp – First | Second Stage | Third stage, partly

- Practise, practise and practise...

Projects

- Portfolio Page

- GitHub Users - React SPA

- React ToDo - MERN + Redux

- WebSite - HTML/CSS/JS + SASS, SwiperJS

- React Drum Machine

- React Random Quote

- React Calculator

Education

Agricultural University Of Georgia   **Tbilis, Georiga**
Electrical And Computer Engineering   *2018 - Present*

Skills

Languages: Georgian, Russian, English
Tech Stack: HTML/CSS/JS, NodeJS, React/Redux, MongoDB, GitHub/Git

Additional Activities
